

## Whiskey and Beer Habit

PERMANENTLY CURED BY  
"ORRINE,"

A SAFE, SURE AND HARMLESS SPECIFIC.

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and strangles the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. No sanitarium treatment necessary. "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

**CURE GUARANTEED OR MONEY REFUNDED.**

Mr. E. T. Sims, Brooklyn, N. Y., writes: "Use my name as a twenty-year drunkard restored to manhood and health by four boxes of 'ORRINE.' It is a wonderful and marvelous cure for the drink habit."

Mrs. F. Wycliff, New York City, writes: "ORRINE" cured my husband, who was a steady drunkard for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of "ORRINE."

Mrs. W. L. D. Helena, Mont., writes: "I have waited one year before writing you of the permanent cure of my son. He took sanitarium treatment, as well as other advertised cures, but they all failed until we gave him 'ORRINE.' He is now fully restored to health and has no desire for drink."

Mr. U. L. R. Kansas City, Mo., writes: "I am satisfied that drunkenness is a disease and the worst in the world. 'ORRINE,' in my opinion, will cure any case if taken as

you direct. I was a common drunkard for twenty years, but to-day I am free of any desire for liquor. You have found the specific. God bless you!"

Mr. A. E. L. Atlanta, Ga., writes: "I was born with a love of whiskey and drank it for thirty-two years. It finally brought me to the gutter, homeless and friendless. I was powerless to resist the craving and would steal and lie to get whiskey. Four boxes of 'ORRINE' cured me of all desire and I now hate the smell of liquor."

Price 5¢ per box, 4 boxes for \$2. Mailed in plain, sealed wrapper by Orrine Company, 87 1/2nd street, Washington, D. C. Interesting booklet (sealed) free on request.

## PROFESSOR KNIGHT ELECTED PRESIDENT

Miss Maud Shannon Is Selected for Secretary.

OF KANSAS ASSOCIATION

Harper Delegation Won Prize of Pennant.

R. F. Knight, superintendent of the Wichita public schools, was unanimously elected president of the Southern Kansas Teachers' association yesterday afternoon.

The following officers, including Superintendent Knight as president, were elected: Mrs. Ida Caper Fleming, El Dorado, secretary; Miss Maud Shannon, Atchison, treasurer; A. B. Hanson, Medicine Lodge, secretary.

The following executive committee was appointed: B. F. Duncan, W. George, E. Hosick, Wellington, O. W. Thomas, El Dorado, J. W. Spindler, Winfield and T. C. Puffer, Winfield.

The meeting of this association, which was held in this city Friday and Saturday, was the largest and most successful, both financially and in an educational way, ever held.

The interest manifested by the teachers, their loyalty and enthusiasm in the work was all that could be asked for and accordingly at every session of the association the congregational church was crowded.

The enrollment of teachers for this meeting was the largest in the history of the organization.

It was 548. This is 250 more than ever enrolled before. The officers and teachers are very much elated over the success of the meeting and feel that it was productive of many lessons that will leave a lasting impression and will cause the standard of the teachers in this district to be considerably raised.

The amount of money taken in at this meeting exceeded the fondest hopes of the officers and \$253.75 was left to the association after all expenses were paid.

The meeting was opened yesterday morning at 9:15 o'clock with music by the High School Glee Club. Fred Carruth spoke on "Curriculum of the Curriculum." Clarence J. Smith, director of manual training in the Wichita high school, spoke at length on the necessity and importance of teaching these branches in the public schools.

He said Massachusetts declares for it in her statutes as follows: "Every city and town containing 25,000 inhabitants or more shall maintain the teaching of manual training as a part of both its elementary and its high school system."

Wisconsin, Kansas and Missouri have also recognized the importance of these branches in the public schools by making appropriations to carry on the work.

In Mr. Smith's opinion true education finds better expression in manual training than in many other studies, and more, that manual training is better mental training than many who have not investigated its merits will concede.

It calls out rather than expresses the activities of the child; it reveals his capabilities; it stimulates his initiative and it purifies his being by training him by standards of exact truth which he very well understands.

The square and the rule tell him very plainly whether he is working out the line true and correct.

This self-examination is something new to the youth and leads up to higher ideals.

Mr. Smith's address was to the point and it made an impression with the association that will probably lead to better and more efficient work being done in the future.

**THEY ACTUALLY DO THE WORK**  
Food Eaten Is Worthless Unless Digested—Some Stomachs Must Have Help.

Food taken into the stomach, which, from the nature of the food or the condition of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as sensible for a business man who is unable to do all his own work to cut down his business to his own capacity as it is for a man to starve himself to reduce his stomach.

The sensible business man employs help and goes forward with his business. Likewise, the sensible dyspeptic will employ help for his stomach and give his body proper nourishment.

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out nature's plan for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means body and brain get all the good, nutritious food they need and the man is properly nourished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condition by starving himself or employing some new fangled, inefficient food that does not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed and this applies to the brain as well as the body.

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she heals and knits the bone of a broken limb, which is, of course, not used during the process of repair.

Stuart's Dyspepsia Tablets are for sale by all druggists at 25 cents a box and they are the one article that the druggist does not try to sell something in the place of that "just as good." Their unqualified merit and success and the universal demand for them has placed them within the reach of every one.

**WILL BUILD HOME.**  
O. W. Jones has sold through the agency of George C. Henry, 64 feet of ground in the fourteenth block of South Topeka avenue to Fred Wilbur, of Oklahoma. Mr. Wilbur will commence work at once on a handsome residence. Upon its completion he will move his family here to live.

## Are You Hungry?

Does what you eat hurt you? If you are Bilious or have a Sluggish or Disordered Liver, or have Indigestion, you can be set right by using

## Beecham's Pills

Sold Everywhere. In boxes 10c and 25c.

These two branches in this school district. This address was followed by papers on the different phases of "Rural school work."

Then came a general discussion of the subjects presented.

W. H. McDaniel spoke on "The Bible in the Public Schools," and Miss Jennie Davy read a paper on "The Relation of Home and School."

This concluded the program for the morning and the meeting adjourned at 11:45.

The afternoon session was opened with music by the High school orchestra.

The different committees then made their reports.

The following resolutions were offered and adopted by the association:

"We, the committee of the Southern Kansas Teachers' association here assembled, respectfully submit the following resolutions:

"Resolved, first, That we renew our allegiance to the Western School Journal and heartily recommend it to the teachers of the state.

"Second, That we thank Miss Clark and her pupils for the excellent music with which they have entertained the association.

"Third, That our hearty thanks are due the executive committee and the presiding officer for the excellent program and the dispatch of business in general.

Fourth, That the thanks of the association be extended to Dr. Wm. A. Quayle for his excellent lecture on "Sidney Cartwright," and to Superintendent Davidson for his instructive address on "Defects of Teachers' Hairs."

"Fifth, Believing that the elevation of the standard of preparation on the part of the teacher required by the new certificate law, has caused an increase of wages, we urge that a more thorough preparation and a determined stand on the part of the teachers to secure wages commensurate with their increased worth.

"Sixth, That we recommend that wherever special preparation is necessary for the most efficient work in the several educational lines, the existing law be so amended as to provide for a special examination for those engaging exclusively in primary work.

"Seventh, That this association is opposed to the present system of so-called uniformity of text books, in that in many cases we are confined to one inferior author on a subject, when a choice of standard authors would tend to broaden and deepen our educational system.

"Eighth, That we heartily endorse and cheerfully co-operate with the efforts now making to prepare and properly exhibit the educational preeminence of our great state at the St. Louis exposition.

"Ninth, Believing that anything of the nature of the so-called 'graft' is dangerous to the morality, good government and education, especially when practiced by public officials or prominent educators, we as teachers, heartily condemn the same and pledge our best endeavors to eradicate the evil.

"Tenth, Believing the home as well as the school to be one of the corner stones of our civilization, and knowing that the excellence of the same depends primarily upon our fair sisters; that whereas, certain school boards have attempted to standardize and discourage but to prohibit them from taking that higher step from school teacher to a happy home maker, therefore we condemn any such action on the part of any board as interfering with a God-given prerogative to our fair sisters and co-workers."

Respectfully submitted by the committee, Supt. Fisher of Arkansas City, Mrs. John of Medicine Lodge and Principal T. C. Chinlin, Mulvane.

Two reports were made by the committee on location, a majority report favoring Wichita, as the next meeting place, and a minority report favoring Winfield.

The minority report was voted down, and therefore the next meeting of the association will be held in Wichita.

The committee on awards presented the pennant to Harper for having the best attendance of schools in the best attendance of the third class having the largest attendance was given to Harper county.

In the contest of cities of the third class the \$3 library was given to Medicine Lodge, who had 100 per cent of their teachers present.

Belle Plaine also had an attendance of 100 per cent, but Medicine Lodge teachers came the farthest and the prize was awarded to them.

After the reports of the committees Prof. J. M. Rhodes read an address on "Preparation for Citizenship."

The program was completed at 4 o'clock at which time the meeting adjourned. Ex-President F. R. Dyer made the closing speech.

**WILL BE COOLER.**  
Clear Weather, However, Will Prevail for Some Time.

For Wichita and vicinity: Fair weather and cooler for Sunday.

For Kansas: Fair weather and cooler for Sunday.

The weather man is still kindly disposed toward Wichita people, and in giving out his forecast said that there would not be much change in prevailing weather conditions in the next twenty-four hours. It will be cooler, but the change will not be notable. Clear weather is generally shown except over the Upper Mississippi, Missouri and Ohio valleys and Lake region. Snow was falling at the morning observation at Huron, Chicago and Davenport. The precipitation in the past 24 hours has been unimportant. The British Northwest disturbance, central over America yesterday morning, has moved rapidly southeastward, and a decided rise in temperature over the Missouri, Mississippi and Ohio valleys. A ridge of high pressure that extends from western Montana southward to northern Utah has caused a moderate decline in temperature over the greater portion of plateau region.

## MAYOR McLEAN TO CALL MEETING

Citizens Will Gather at Garfield Hall.

NEXT THURSDAY NIGHT

Protest Will Be Made Against Rate Problem.

At the instance of the members of the Board of Trade and many prominent business men of this city Mayor McLean has called a meeting to protest against the recent findings of the Interstate Commerce commission for Thursday evening at Garfield hall.

The residents of the city are not satisfied with the findings of the commission and feel that under the evidence introduced a more favorable decision ought to have been given, and a lower rate ought to have been made on different commodities, upon which the issue was taken.

The decision has caused much discussion throughout the city, and has aroused the people to such an extent that they do not mean to let matters rest under the present status if anything can be done. At this meeting the question will be open to discussion and some means will be devised to secure another hearing, if possible.

The grain men of the city are especially displeased over the finding, and feel that an unfair discrimination prevails in the rates to Wichita. A good attendance of the representative citizens of Wichita is desired so that the commission may see that the city is thoroughly aroused over the matter. A member of the Board of Trade in speaking about it yesterday said that if anything was accomplished in this matter it would only be done by the united and combined efforts of the representative citizens of the city, and that the greater the number of persons who took an interest in the matter the greater the chances of success would be. He said that the time had come when the citizens of Wichita should take a stand in the matter, make a fight for lower rates and if this was not done nothing would ever be accomplished, as the railroads would continue in their discrimination.

**IS SERIOUSLY ILL.**  
Raymond Stetter Was Not Expected to Live Last Night.

Raymond Stetter, the son of Mr. and Mrs. Joseph Stetter, was lying at the point of death in the St. Francis hospital, at a late hour last night.

He has been ill with appendicitis since last Sunday, and he underwent an operation yesterday afternoon, from which the doctors say he has no chance of recovery.

Raymond is well known in the city, having attended the Lewis academy and Fairmount university, where he was very popular among his classmates and teachers. He has a host of friends in the city who will be shocked to learn of his dangerous condition.

At a late hour last night he was still living, but no hopes were entertained that he would last through the night.

W. S. Payne went to Douglas yesterday, where he will spend Sunday the guest of friends.

**RHEUMATISM**  
Is always caused by uric acid in the blood and uric acid crystals settle in the muscles and joints cause excessive irritation and excruciating pain.

Rheumatism more frequently attacks persons in middle life and old age. The reason of this is that the kidneys fail to eliminate from the blood the uric acid. As the uric acid accumulates the blood becomes more and more impoverished. Your pores begin to clog up, you do not perspire, and your whole complexion takes on a yellowish cast. Your food fails to properly digest and assimilate, and your body is racked by the most severe pains. When such conditions arise there is only one remedy that will give you quick relief and a permanent cure. Crippen's Compound is taken in small doses, from five to fifteen drops in a little water after each meal. It is purely vegetable, contains no acid or poisons, and instead of causing injury to one's stomach will positively aid digestion.

Secure a bottle from your druggist without delay, and be one of the hundreds cured by Crippen's Compound. If your druggist can't supply you, it will be sent direct on receipt of price, 3¢ per bottle; 6 bottles, \$2.00. The Crippen Medicine Co., 204-208 N. Main street, Wichita, Kan.
